COMPANY OVERVIEW

Nova Titan Systems LLC is a West Texas low-voltage infrastructure contractor providing structured cabling, network infrastructure, wireless access point support, security infrastructure, and field technology services for commercial, education, healthcare, government, and industrial clients. Nova Titan provides field execution, project coordination, and closeout support across West Texas and the broader Texas market. SAM.gov active. SBA-Certified HUBZone Small Business.

CORE COMPETENCIES — DIVISION 27 / LOW-VOLTAGE INFRASTRUCTURE

- **Structured Cabling:** Cat5e / Cat6 / Cat6A / fiber — horizontal and backbone cabling, terminations, performance testing, labeling per TIA-568
- **MDF / IDF Room Support:** Full telecom room buildout, rack installation, patch panels, cable management, telecom bonding/grounding, backboards, closeout documentation
- **Network Infrastructure:** Patch panel support, network closet remediation, cabling for network switches and equipment — physical-layer support with configuration coordination as required.
- **Wireless Access Point Support:** WAP cabling, mounting support, AP-on-a-stick survey capability, coverage assessment, coordination with network engineers
- **Security Camera / NVR Infrastructure:** IP and analog camera cabling, NVR physical infrastructure support, physical-layer rough-in — coordination with licensed integrators
- **Access Control Cabling / Rough-In:** Card reader cabling, door contact and PIR cabling, ACP homerun cabling, IDF/ACP coordination — cabling and physical-layer scope only
- **Field Technology / Smart Hands:** Site surveys, kiosk data cabling, remote-engineer-assisted installs, hardware swap support, dispatch and documentation closeout
- **Fire Alarm Coordination:** Adjacent low-voltage support and project coordination for fire alarm scopes — regulated FA work performed by licensed Texas subcontractors only

WHY NOVA TITAN

- West Texas base with regional coverage: Lubbock, Midland/Odessa, Abilene, Big Spring, Amarillo, Brownfield, and surrounding West Texas markets
- Owner-led scope control with documented coordination and closeout
- Davis-Bacon compliant / certified payroll capable for government and federally funded projects
- SBA-Certified HUBZone Small Business — eligible for HUBZone set-aside and sole-source contracts
- Rapid regional deployment — same-week field execution available for qualifying local scopes
- Structured closeout documentation on all jobs: labeled cabling, test reports, as-built records, photos

FIRE ALARM / DIVISION 28 SCOPE BOUNDARY

Nova Titan provides Division 28 security infrastructure support, including access control cabling, security camera cabling, and physical-layer rough-in. Regulated fire alarm programming, testing, and tagging are performed by properly licensed Texas fire alarm subcontractors engaged at award.
